

Decision Matrix Workbook

Make important choices with clarity, not anxiety.

How to use: For each decision, write your options and weighted criteria. Score each option 1-5 per criterion, multiply by weight, add up totals. Highest score wins.

Decision #1

My decision: _____

Date: _____ Deadline: _____

#	Option	Gut feeling (1-5)
1	_____	___ / 5
2	_____	___ / 5
3	_____	___ / 5
4	_____	___ / 5

Criteria & Weights

For each criterion, assign a weight of 1 (least) to 10 (most important).

#	Criterion	Weight	Notes
1	_____	___	_____
2	_____	___	_____
3	_____	___	_____
4	_____	___	_____
5	_____	___	_____

Tip: Once the math picks a winner, wait 24 hours. If you feel disappointed, you already know which option your gut wanted.

Decision #2

My decision: _____

Date: _____ Deadline: _____

Options

- 1. _____
- 2. _____
- 3. _____

Scoring Grid

Score each option 1-5 against each criterion. Multiply score x weight for total.

Criterion	Weight	Option 1	Option 2	Option 3
_____	___	__x__=___	__x__=___	__x__=___
_____	___	__x__=___	__x__=___	__x__=___
_____	___	__x__=___	__x__=___	__x__=___
_____	___	__x__=___	__x__=___	__x__=___
TOTAL		___	___	___

Winner: _____ Score: ____

Action: _____

Print 5-10 copies and keep them in a folder. Every time you're stuck, grab one. The physical act of writing helps your brain commit.
